Education

Marrakech, Morocco **Master of Data Science and Decision Support**
University Cadi Ayyad

Profile

I am a Software Engineer with industry experience in building websites and web applications. I have powerful computer science knowledge and am eager to learn more concepts and deep dive into computer science tracks. Good in Object-Oriented Programming, Data Structures, Algorithms, Database Systems, Design Patterns, and Problem Solving skills. I practiced competitive programming a lot in college and I was enjoying competing with my colleagues and mentors and participated in many programming competitions.

Professional Experience

- Marrakech, Morocco **Project Graduation**
Province Chichaoua | Angular & Spring Boot
Realization of an Integrated Management System of the communication of the province.
- Marrakech, Morocco **Shopping website**
Angular & Firebase
Shopping and food delivery carts are a well-resourced topic but what if we take it a little further and create a shared cart for an office.
- Marrakech, Morocco **Backgammon Game**
Python
Backgammon is the most widespread member of the large family of tables games played with counters and dice on the characteristic tables boards with 24 long triangles.
